

Charles T. Clark

Engineering Portfolio: charlesclark.me

charlesclark@vt.edu | (224) 358-5132 | Chicago, IL (Open to Relocation)

Seeking Spring 2027 Co-op and Summer 2027 Internship in Mechanical Engineering

EDUCATION

Virginia Tech

Bachelor of Science, Mechanical Engineering Candidate

Blacksburg, VA

Expected Graduation: May 2028

- GPA: 3.84 | Dean's List (All Semesters)
- Mechanical Engineering Undergraduate Student Ambassador
- Raymond & Shirley Lynn Merit Scholarship Recipient
- Relevant Courses: Dynamics, Thermodynamics, Differential Eq, Mechanics of Bodies, Electrical Theory

EXPERIENCE & PROJECTS

Culligan International

Mechanical Engineering Design Intern

May 2026 – Aug 2026

Rosemont, IL

- Designed injection-molded parts on SolidWorks that reduced footprint by 60% for residential use
- Performed SolidWorks FEA on commercial mounting brackets to verify performance under load
- Developed and presented a field training suitcase concept that secured \$75,000 in company funding
- Created technical engineering drawings for 5 commercial water softeners and assemblies

Pulse Jet Design Team

Founder and President

May 2025 – Present

Blacksburg, VA

- Founded a design team with 8 members that prototypes and builds pulse jet engines
- Designed in SolidWorks and fabricated a steel, propane-fueled pulse jet that produced approximately 70 lbf of peak static thrust during bench testing
- Created a testing bench to safely and accurately get thrust, temperature, and fuel efficiency readings

Automotive Restoration

Independent Project

August 2020 – Present

Libertyville, IL

- Rebuilt and restored two vehicles, a 2001 Jeep Cherokee and a 1987 Jeep Comanche.
- Applied 6 years of automotive classes and knowledge to complete restoration on a set budget.
- Used welding, machining, and diagnostic problem solving to restore vehicles to working conditions.

Virginia Tech Engineering Education Department

Accessibility Design Project Leader

August 2024 – May 2025

Blacksburg, VA

- Designed and prototyped a telescoping crutch, reducing storage space by 66%
- Utilized SolidWorks and rapid prototyping to create models and show the device's capabilities
- Led team meetings, created and enforced deadlines, and reported on progress

HONORS & CERTIFICATIONS

Eagle Scout | Boy Scouts of America

July 2023

- Led and fundraised over \$3,500 for a community service project while serving in leadership roles.

Certified SolidWorks Professional (CSWP) | Dassault Systèmes

July 2026

Finite Element Analysis (FEA) Certification | GoEngineer

July 2026

TECHNICAL SKILLS

CAD and Analysis: SolidWorks (CSWP), Finite Element Analysis (FEA), Engineering Drawings, MATLAB

Product Development: Rapid Prototyping, Injection Molded Part Design, Design Validation

Manufacturing & Fabrication: MIG/Stick Welding, 3D Printing, CNC Machining, Forklift Certification
